Wan Yun Chang (Chelsea)

Full Stack Engineer

📍 New Taipei City, Taiwan | 📞 +886-975-639-703 | 📧 limo1878@gmail.com

SUMMARY

Full-stack engineer with 5+ years of experience building scalable internal tools and cross-platform applications. Proficient in C#, Vue/Nuxt, and Angular, with a strong record of delivering under pressure and managing projects independently. Looking to transition into a hybrid individual contributor/consultant role focused on system architecture and hands-on implementation.

EXPERIENCE

Cymmetrik Group — *MES Engineer (Full-time)*   *Aug 2024 – Present*

- Modernized legacy Oracle Forms systems using C#/.NET and OracleDB
- Accelerated delivery by 60% via parallel workflows and improved documentation
- Facilitated async collaboration across distributed teams

Freelance — *Full Stack Developer (Part-time)*   *Apr 2024 – Apr 2025*

- Delivered a multilingual website and admin panel using Nuxt (SSR), custom APIs, and database integration
- Took full ownership post-team shakeup: client communication, scoping, delivery
- Leveraged AI tools to adapt to shifting tech requirements and accelerate delivery while maintaining code quality

ZEROSUM Corp. — *System Engineer (Full-time)*   *Mar 2020 – Feb 2024*

- Evolved from frontend to full-stack across web, mobile, and IoT projects
- Developed a real-time Android app for an alcohol interlock system
- Co-designed shared database schemas to streamline collaboration and reduce technical debt

SKILLS

Frontend: Vue3, Nuxt, Angular, Next.js, jQuery
Backend: C# (.NET, .NET Framework), REST APIs
Database: OracleDB, MSSQL, MariaDB, Redis
DevOps: Docker, Git
Other: Xamarin, Kotlin

EDUCATION

B.S. in Information Management
National Taichung University of Science and Technology | 2015 – 2019
